SURVEY ANNOUNCEMENT

VOLUNTEERS REQUIRED
DO YOU TREAT CHILDREN WITH CEREBRAL PALSY?

Dear colleagues my name is Aminah Sadeq. I am a paediatric physiotherapist currently undertaking a Master’s degree in paediatric physiotherapy programme, at University College London.

You are invited to participate in a research survey which aims to explore the reasons why physiotherapists use standing frames to aid postural management programme for children with cerebral palsy aged between 2-6 years in different Gross Motor Function Classification Scale. Your participation will help the future practice of the standing frames and might be basis for future guideline and research.

To be eligible for the research you need to be a paediatric physiotherapist working in Kuwait city who has a minimum of one year working experience with cerebral palsy.

Participation is voluntary and you can exit the survey if you wish. Your time is valuable. Therefore I want to let you know, that the online questionnaire will approximately take 10-15 minutes to complete. There will be mixture of closed and open questions.

I would appreciate if you could share this e-mail with relevant colleagues; people who may be eligible and interested.

If you would like additional information or to take part of my research please enter the online link below:
